

Bonnie has experience across a wide range of industries and organizations. An expert at product and service marketing strategies, organizational processes, and project management methodologies, she has worked with non-profit and commercial entities and has managed substantial budgets and staffs within organizations of various sizes, from start-ups to multi-billion-dollar firms.

As the Chief Operating Officer of The Partnership Federal Credit Union, she is responsible for daily operations and all special projects, including the project management of all merger initiatives. Before her career at The Partnership Federal Credit Union, Bonnie served as a Principal in Confluence Consulting LLC, collaborating with numerous successful start-ups in the information technology, financial and healthcare industries, leveraging exceptional skills in streamlining operations and optimizing profitability. For 21 years she worked within AT&T and the Bell Systems managing multi-million dollar programs in both Federal and commercial markets. She consistently increased revenue and enhanced profitability, building teams and cultivating leaders that ran multi-million dollar programs.

Bonnie attended the University of Pittsburgh and participated in the Project Management master's program at George Washington University. She moved to North Beach, Maryland, several years ago to more fully enjoy the boating community and the Bay. She joined Herring Bay Yacht Club in 2009 and has remained extremely active, holding the positions of Quartermaster, Treasurer and Commodore. During that time she participated in most of the Middle Bay cruises and remembers fondly her first cruise on the Bonnacello to Vera's. Her dreamboat is a larger Apreamare with 2 state rooms and a little more living space. Her memories of HBYC events are among the fondest, especially the 2014 Commodore's Ball and the warm reception she received from all of the attending members.
